SPECIAL REPORT

EPIDEMIOLOGY CLINICAL PRACTICE AND HEALTH

- Diagnosis of sarcopenic obesity in Japan: Consensus statement of the Japanese Working Group on Sarcopenic Obesity
K Ishii et al. 997

ORIGINAL ARTICLE

EPIDEMIOLOGY CLINICAL PRACTICE AND HEALTH

- Relationship between respiratory function assessed by spirometry and mild cognitive impairment among community-dwelling older adults
Y Tachibana et al. 1001
- Factors necessary for a community pharmacist to achieve interprofessional collaboration in home-based care in Japan
T Mizuno et al. 1008
- Incidence and influencing factors for respiratory sarcopenia in older adults: The first longitudinal evidence from the CHARLS
K Chen et al. 1015
- Chemosensory anhedonia facilitates depressive symptoms and cognitive impairment in late-life depression
J Li et al. 1022
- Risk factor of disability as new certification of long-term care needs in older Japanese adults with diabetes mellitus: A longitudinal study
K Toyoshima et al. 1030
- Feeling of incomplete bladder emptying and angiogenesis-related polymorphism rs3025020 among older community-dwelling individuals
Y Shimizu et al. 1039
- Coexistence of low body mass index and poor oral health negatively affects activities of daily living, swallowing, and cognition after stroke
Y Yoshimura et al. 1045

- Association of oral hypofunction with aspiration pneumonia, fractures, and mortality in older Japanese adults
K Sakai et al. 1053

- Sex differences in reduction of trunk muscle mass related to falls and cognitive function during the COVID-19 pandemic in older adults
M Nagano et al. 1060

BEHAVIORAL AND SOCIAL SCIENCES

- Effect of group play therapy as holistic geriatric interventional modality on feelings of loneliness among older people: A randomized control trial
F Jamei et al. 1067

BIOLOGY

- Allostatic load in rat model: An efficient tool for evaluating and understanding aging
D Chen et al. 1077

LETTER TO THE EDITOR RESEARCH STUDIES

- Recommendations for cancer screening and surveillance in patients with Werner syndrome
K Aono et al. 1085

CORRECTION

- Correction to "Effect of cholecalciferol supplementation on hand grip strength, walking speed, and expression of vitamin D receptor, interleukin-6, and insulin-like growth factor-1 in monocyte in pre-frail older adults: A randomized double-blind placebo-controlled trial" 1088
