Geriatrics and Gerontology International Volume 24 Issue 11, November 2024

REVIEW ARTICLE

- Unwanted cardiopulmonary resuscitation against patients' "Do Not Attempt Resuscitation" orders in community settings in Japan: A narrative review
K Kuroda et al. 1093
- Late-onset primary muscle diseases mimicking sarcopenia
S Yamashita 1099

COMMISSION REPORT EPIDEMIOLOGY CLINICAL PRACTICE AND HEALTH

- Consensus statement on "Oral frailty" from the Japan Geriatrics Society, the Japanese Society of Gerodontology, and the Japanese Association on Sarcopenia and Frailty
T Tanaka et al. 1111

ORIGINAL ARTICLE EPIDEMIOLOGY CLINICAL PRACTICE AND HEALTH

- Tachypnea in response to hypoxemia decreases with age in older patients
S Cuerdo et al. 1120
- DASC-21 score and risk of rehospitalization and all-cause mortality after discharge in older patients with heart failure
R Shimizu et al. 1130
- Associations between multimorbidity patterns and sarcopenia transitions in Chinese older adults
L He et al. 1137
- Effect of standardized hypnotic bundles on insomnia during hospitalization and reducing fall rate: A single-center retrospective cohort study
Y Yoshino et al. 1144
- Developing a brief older adults' physical activity questionnaire
K Nagai et al. 1150
- Association between physical activity levels and mortality across adiposity: A longitudinal study of age-specific Asian populations
Y Han et al. 1156
- Ability of the SMART-COP score to predict the need for intensive care unit admission and mortality in older patients with non-ventilator-associated hospital-acquired pneumonia: A retrospective observational study
K Kollu et al. 1165
- Cross-sectional study of the optimal types of physical exercise for cognitive function in older Japanese adults
K Nagata et al. 1173
- Characteristics of falls in Japanese community-dwelling older adults
M Yamada et al. 1181
- The role of training and medication reminder wristwatch in adherence to treatment in geriatric patients diagnosed with hypertension: A randomized controlled trial
T Solmaz and B Altay 1189

BEHAVIORAL AND SOCIAL SCIENCES

- Prevalence, correlates, and health indicators associated with meal-skipping among middle-aged and older adults in Thailand: A national longitudinal study
S Pengpid et al. 1196
- Predictive validity of the Questionnaire for Medical Checkup of Old-Old for all-cause mortality and disability incidence
N Hori et al. 1203
- Mediation analysis of cognitive function in the relationship between pulmonary function and depression among middle-aged and older adults
Y Yang et al. 1210
- Study protocol of the safe driving program for the prevention of car accidents: A randomized controlled trial protocol
H Shimada et al. 1218
- Development of the Japanese version of the Mobile Device Proficiency Questionnaire: A cross-sectional validation study
S Shimokihara et al. 1223

BIOLOGY

- Geraniol intake improves age-related malnutrition in mice
S Shibuya et al. 1233

LETTER TO THE EDITOR

CASE REPORT

- Acute exacerbation of combined pulmonary fibrosis and emphysema due to suspected loxoprofen-induced lung injury
M Ando et al. 1241
- Long-term follow up of a single case of metabolic surgery in an elderly Japanese patient with severe obesity
M Takemoto et al. 1243

RESEARCH STUDIES

- Factors associated with therapeutic lying in dementia care
D Noguchi 1245
- A blind spot in cognitive evaluation for risk of falls in older patients in rehabilitation wards: A nested case-control study
N Itoh et al. 1246

COMMENT

- Letter to Editor in response to "Sex differences in reduction of trunk muscle mass related to falls and cognitive function during the COVID-19 pandemic in older adults"
H Daungsapawong and V Wiwanitkit 1249
- Re: Family caregivers use a hand-under-hand online course to improve the nutritional status of patients with severe dementia: A quasi-experimental study
K Kajiwara et al. 1250
